

# St Andrew's C of E (VA) Infant School

## Reception

### Key Vocabulary:

Arctic –the north pole

Antarctic – the south pole

Temperature - how hot or cold something is

Thermometer – used to measure temperature

Freezing - when water become ice at cold temperatures

## Animals we will learn about:

## People and Communities:

We will use books and the internet to find out..

If anyone lives in the Arctic and Antarctica?

What we would need to travel there?

What people eat and how they would live and keep warm?

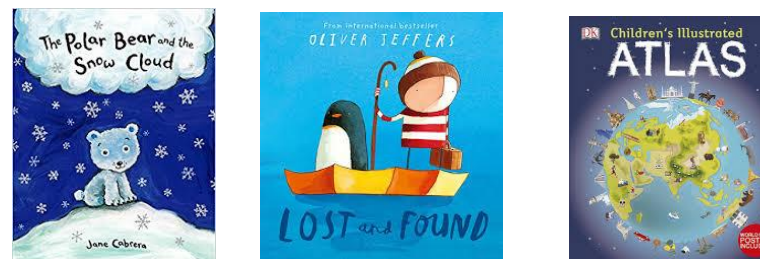

## Understanding the World:

We will be **exploring** and finding out how **ice** is made and disappears.

What **melting** is and how it happens.

What **snowflakes** look like.

## Books we will be looking at:

We will also be looking at a range of **Animal Poems** and **Non-Fiction Books** throughout the topic.

## What is happening to the North and South Pole?

We will use **non-fiction books**, the **internet** and news clips to find out what is happening to our ice caps and why they are **melting**.

We will think about how this will affect the **environment** and the **animals** that live there.
